

# BEYOND SUNDAY

A celebration of nature in every way that honored a parishioner's legacy. The first annual Care of Creation Fest at St. Philip's Episcopal Church in New Hope was conceived by Liz Bowman, a longtime parishioner and journalist who died months before the event. "Liz loved gardening and was herself a force of nature," said the Rev. Michael Ruk, rector of St. Philip's. The environmentally themed festival brought together area organizations that educated and engaged all ages. And, a blessing of the animals with some sweet dogs up for adoption. (Two were adopted!)
